CyberCultX

Feedback

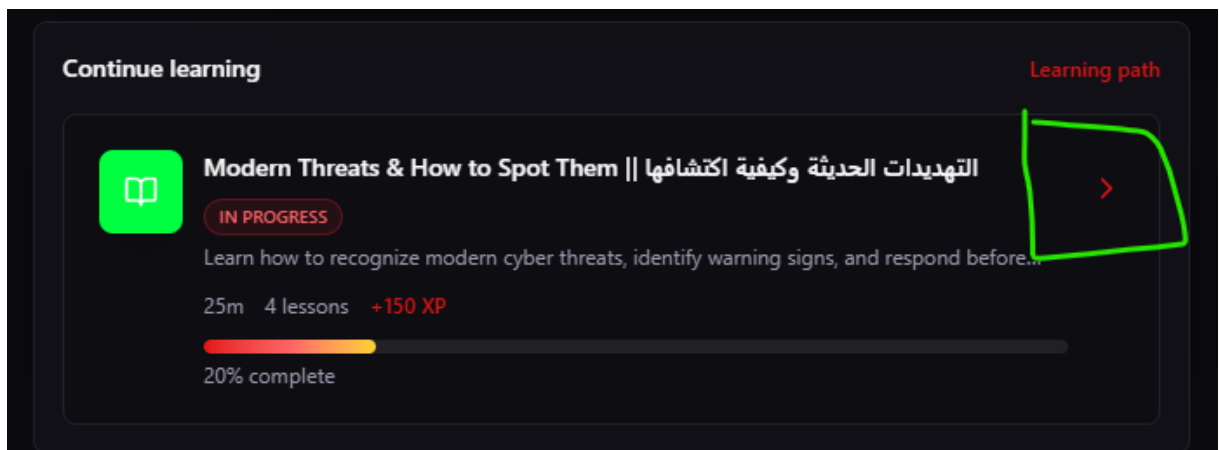

After review, overall, the platform looks great, but we have identified a few technical bugs, UI/UX issues, and localization gaps that need to be addressed. Please find our detailed feedback below:

1. Performance & Authentication

- High latency across the platform: Optimize initial loading times and improve the speed of the user authorization process.
- Slow transition on the hamburger icon transition: Fix the lag on the hamburger icon transition to make it feel responsive.

2. Bugs & Functional Issues

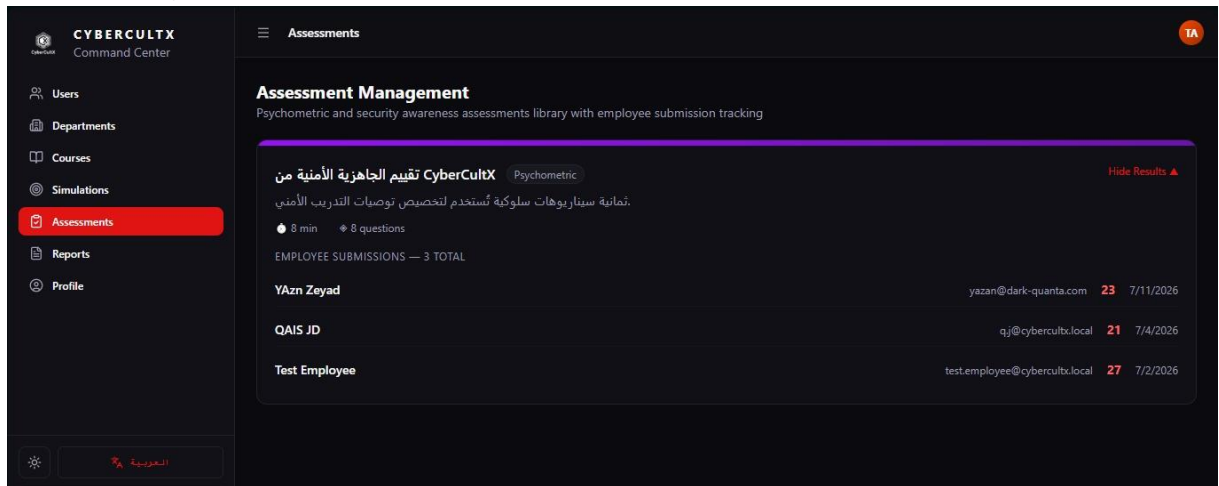

- Platform logo behavior is incorrect: Clicking the main platform logo should redirect the user to the home page, but it currently logs the user out.
- Broken navigation link: Fix the "Platform" link in the main navigation bar; it is currently unresponsive.
- Broken links: It should redirect user to the lesson.

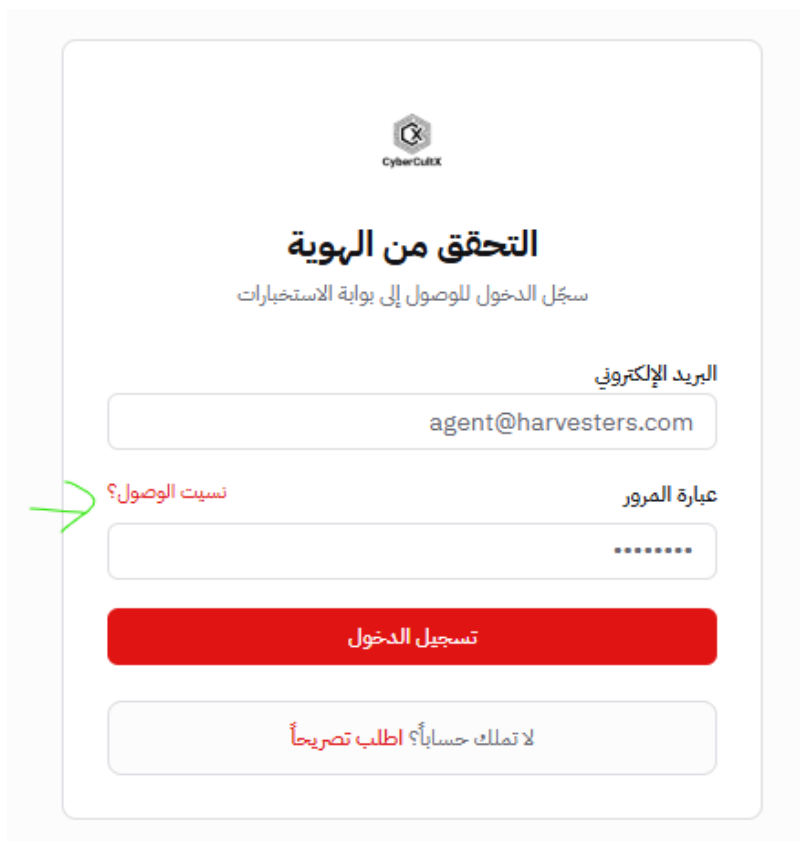

3. UI, UX & Localization

- Low contrast in Light Mode: Adjust the text color for "**Measurable Intelligence**" in Light Mode to ensure proper contrast and readability.
- Dynamic content localization: Lesson content is currently displayed exclusively in Arabic, regardless of the user's selected language preference. The platform should dynamically update the language of the lessons to match the user's active language choice.
- Incomplete localization: Ensure full Arabic translation coverage across all pages of the platform.

- Score display formatting: Update the scoring display to show the complete absolute values (e.g., “20 of 30”) rather than just a standalone number or percentage, for better clarity.

- Translation is not clear.

- Alignment problems with Arabic

The image displays two screenshots of the CYBERCULTX dashboard, illustrating alignment issues with Arabic text.

Top Screenshot: Reports Section (التقارير)

- Left Panel (أحدث التقارير):** A list of reports with status indicators (مكتمل, قيد التبريل).
- Right Panel (إنشاء تقرير جديد):** A grid of report categories:
 - تقرير الموظفين (EMP):** درجات المخاطر لكل موظف وتقديم التعلم ونتائج التصيد.
 - تقرير الأقسام (DEPT):** تجميع ومقارنة المخاطر على مستوى القسم.
 - تقرير المخاطر (RISK):** تحليل شامل لمعهد التهديدات والنفقات في المؤسسة.
 - تقرير الامتثال (COMP):** حالة الامتثال التنظيمي ومعدلات إتمام التدريب.
 - التقرير التنفيذي (EXEC):** ملخص تنفيذي مع مؤشرات الأداء والتوصيات الاستراتيجية.

Bottom Screenshot: Test Section (Test)

- Header:** مرحباً بعودتك, جاهزيتك الأمنية هي 27% (Your security readiness is 27%).
- Progress Bar:** A progress bar showing the user's security readiness level.
- Test List:** A list of tests, including "Modern Threats & How to Spot Them" (Modern Threats & How to Spot Them), which is highlighted with a green arrow.
